Chairperson's Message

In these days of light, of praise, and thanksgiving, we are proud of the light of selflessness radiating from our kidney donors. This light keeps on growing, shining into the distance and serving as a beacon for all who see it. Indeed, a great miracle took place and is still taking place here, when we see more and more people who want to donate a kidney and give the gift of life. May we continue to walk in their light.

Happy Chanukah!

Mrs. Rachel Heber
