

## Compensation for Kidney Donors January 2022

**Quick reference if you don't need the long explanations:**

Category	How much	When applicable	Dept.	Comments
Lost work days	40 days of salary (approx. 1 month)	After surgery	Health Ministry	One-time
Travel	2773 NIS	After surgery	Health Ministry	One-time
Therapy	Up to 436 NIS x 5 sessions	Up to 48 months after surgery	Health Ministry	One-time
Recuperative vacation	Up to 555 NIS/night for 7 consecutive nights	Up to 90 days after surgery, extensions with permission	Health Ministry	One-time
Health insurance	Up to 61 NIS/month	One year periods beginning 12-15 months after surgery	Health Ministry	Period of 60 months
Disability insurance	Up to 211 NIS/month	One year periods beginning 12-15 months after surgery	Health Ministry	Period of 60 months
Life insurance	Up to 133 NIS/month	One year periods beginning 12-15 months after surgery	Health Ministry	Period of 60 months
Nat'l health insurance exemption, for donors 2019-2022	Depends on salary	<u>Salaried workers</u> – receive exemption letter in Dec-Jan. Exempt beginning January after donation. <u>Self-employed workers, yeshiva students, unemployed</u> : automatic exemption beginning January after surgery	<b>Bituach Leumi</b>	Period of 36 months

We don't donate a kidney to make a profit, but nevertheless, kidney donors are eligible to receive a number of benefits and refunds from the government. It's important to understand these benefits and to take advantage of them. Although it may take some time to sort through the paperwork and work through the bureaucracy, the effort results in a considerable sum of money – **tens of thousands of shekels** over 5 years.

The following explanations are correct as of January 2022. The amounts are periodically updated, and there will probably be changes in the future (hopefully positive ones!).

Refunds can be divided into three categories:

1. **Compensation for lost salary/days of work.** This should be requested immediately following the surgery. Travel expenses are refunded as a flat amount of 2773 NIS, with no receipts required.
2. **Refunds for expenses**, such as a post-surgery vacation; psychological therapy; and three types of insurance. Receipts required to receive refunds.
3. **Exemption from National Health Tax.** The exemption period begins in January following the surgery. Salaried workers will receive an exemption letter to give to their employer.

### Salary Compensation:

The government compensates donors with a payment for a period of 40 days (about one month of work days). The amount is based on the donor's regular salary (similar to "miluim" payment/reserve duty). This payment is meant to cover hospitalization and recuperation at home, as well as the days prior to the surgery that are required for tests, etc. For those who don't work (unemployed, yeshiva students, housewives, pensioners) or have very low salaries, there is a minimum payment of 8,582 NIS. The maximum compensation is 63,105 NIS.

For this refund you must download the documents found here:

<http://www.health.gov.il/DocLib/ADI-earning.pdf>

Submit the following:

- a. Completed request form (pages 2-4 of the PDF file)
- b. A completed 101 form, required because it is as if the donor is receiving a month's salary from Misrad Habriut (the Health Department). The form can be downloaded here:  
<https://www.gov.il/he/service/itc101>  
For help filling out the 101 form please see appendix A.
- c. Both salaried employees and the self-employed must submit a tax reconciliation form. This requires filling out the form using **the tax number of Misrad Habriut: 943006098**. Today this procedure is done online, the link is: <https://www.gov.il/he/service/tax-coordination-online>  
There is no need to add the amount of the transportation refund to the reconciliation form, it's tax-free.
- d. A photocopy of your Israeli ID (teudat zehut)
- e. Additional documents
  1. **Salaried employees** must submit a confirmation from the employer regarding position and salary (pages 5-6 of the pdf). In addition, salaried workers must submit pay slips from the last three months preceding the surgery (not including the month in which the surgery takes place).
  2. **Self-employed workers** must submit the form (shuma) that indicates the taxable income earned the year preceding surgery, along with confirmation from the tax authority that tax was deducted (ishur al nikui mas).
  3. **Those who are neither salaried nor freelance workers** (i.e., those who are not employed, including yeshiva students), must submit a form from Bituach Leumi (the National Insurance) that confirms their unemployed status (ishur maamad).

The money will be deposited directly into your bank account, along with a pay slip.

All the documents should be sent by email only (despite what it says on the forms themselves!) to Osnat Yunayev, who is the coordinator of reimbursements at the National Transplant Center. Her email is: [osnat.yunayev@moh.gov.il](mailto:osnat.yunayev@moh.gov.il) You can also try to call her office at 03-6061742 Monday – Thursday, 9:00 AM – 1:00 PM.

The address is 15 Noach Moses Street, Tel Aviv (near the Azrieli Towers), by appointment only.

**Important to know:**

Like anyone discharged from the hospital after surgery, all kidney donors receive a doctor's letter which details how much sick leave they are entitled to. If you have accumulated sick days at your workplace, you can receive payment from your employer for your sick days; this has no effect on the compensation from the Health Department.

**Refundable expenses**

Kidney donors are eligible to receive refunds for certain expenses after the surgery. The form that accompanies this process can be found here: <http://www.health.gov.il/DocLib/Adi-request.pdf>

1. Transportation refund: A one-time, uniform amount of 2,773 shekels, with no need to submit receipts. The form can be submitted immediately following surgery.
2. Therapy treatments: Misrad Habriut funds up to five sessions with a therapist, up to 444 shekels per session. Invoices must be submitted and the sessions must take place within 48 months following the kidney donation. You are not required to disclose the contents of these sessions but the therapist must be either a psychologist or a social worker licensed through the Health Department. Other types of treatments or therapists are not eligible and will not be refunded. This is a one-time refund for up to five separate sessions (not five sessions a year). The refund request must be submitted within a year from the expenditure of funds for the first therapy session.
3. Recuperative vacation: A refund for a holiday in a hotel for a period of up to seven **consecutive** days/nights, up to 555 shekels per night. Receipts/invoices must be submitted and the vacation must take place within 90 days of the surgery (extensions possible with permission). Even if you stay in the hotel for less than a week, you will be compensated only for the days that you were at the hotel, up to the daily limit. Nor can you submit a claim for two separate vacations that total seven days. You can move from one place to another as long as the nights are consecutive. In theory the vacation must take place at a hotel and not "tzimmers" (B&Bs), but in practice they often honor requests for B&B's. We recommend receiving approval for this in advance. The request for a refund must be submitted within a year after payment was made to the hotel. The invoice can be from the hotel itself or from a travel agent, as long as the name of the hotel, the donor's name, the dates, the price, and the number of nights is clearly written.
4. Private health insurance or supplemental health insurance through the health funds (kupat cholim): The refund is for up to 61 shekels/months for 60 months, upon submission of the policy and receipts confirming that the premiums were paid. Most donors submit receipts for supplemental insurance through their kupat cholim. You'll have to download the invoices from the website of the kupa or wait until they arrive in the mail, and then send them to Misrad Habriut. This can be for an existing policy or a new policy. The refund period begins 1-3 months after the surgery, and the request is submitted after 12 months. For instance, if you donated in August 2021, the refund period begins in September 2021, and continues for 60 months. The request for the first 12 months, in this case, can be submitted in September 2022. Don't wait more than 12 months, or you may not receive a refund for the full amount.

5. Disability Insurance: A refund of up to 211 shekels/month for a 60-month period with submission of the policy and receipts indicating payment. Typically, people are covered through their pension plan or insurance from their employer (bituach menahalim), and have to bring proof of payment. In the case of a policy included within a pension program, you may have to call the agent and request a separate document detailing the specific payment for disability Insurance within the overall payment. It's a hassle but it's worth it in the end. If your agent says he can't do it, insist or find another agent. If you don't already have this type of insurance, consider taking out a policy. The refund period starts in the three months following surgery and you submit the request 12 months later, similar to the example given above (and the same warning applies not to wait more than 12 months to apply).
6. Life Insurance: Refund of 133 shekels/month for a period of 60 months with submission of the policy and receipts indicating premiums were paid. If you already have life insurance, that's great – you'll get a refund. If not, consider taking out a policy. The life insurance policy required for mortgages is eligible for refunds. The refund period starts in the three months following surgery and you submit the request 12 months later, similar to the example given above (and the same warning applies not to wait more than 12 months to apply).

Again, the file you need with all the forms is: <http://www.health.gov.il/DocLib/Adi-request.pdf>. Fill out the request form on pages 3-4. Include a copy of your ID (the picture and the additional information). All the amounts listed above include VAT. You'll receive payments directly to your bank account.

All the documents should be sent by email only (despite what it says on the forms themselves!) to Osnat Yunayev, who is the coordinator of reimbursements at the National Transplant Center. Her email is: [osnat.yunayev@moh.gov.il](mailto:osnat.yunayev@moh.gov.il)

You can also try to call her office at 03-6061742 Monday – Thursday, 9:00 AM – 1:00 PM.  
The address is 15 Noach Moses Street, Tel Aviv (near the Azrieli Towers), by appointment only.

## Exemption from National Health Tax

Kidney donors are eligible for an exemption for the government Health Tax for three years – a benefit that is worth hundreds of shekels a month. As opposed to the previously mentioned refunds, which are handled by the Health Dept. via Osnat Yunayav, this exemption is handled by **Bituach Leumi** (the National Insurance). Note: this is not an exemption from bituach leumi, but for the Health Tax that is collected via Bituach Leumi.

**Beginning in 2021, this process was streamlined and Form 100 is no longer required!**

Kidney donors who are **salaried workers** receive an exemption letter from Bituach Leumi every December for 3 years after their donation. The letter is sent by physical mail and is also in your personal section of the Bituach Leumi website, and you need to take it to your employer to be exempt from the deduction on your salary slip.

If you are a salaried worker and did not receive a letter by mid-January, please ask for it in an email addressed to: [trumutbb@nioi.gov.il](mailto:trumutbb@nioi.gov.il)

Kidney donors who are **self-employed, yeshiva students or unemployed** – beginning January after your donation, you should receive an automatic exemption. If there is a problem please contact [trumutbb@nioi.gov.il](mailto:trumutbb@nioi.gov.il)

Kidney donors who are entitled to a refund from health tax deducted from their **pension** can receive it by doing bituach leumi “coordination” at the end of the year, on the website. If there is a problem please contact [trumutbb@nioi.gov.il](mailto:trumutbb@nioi.gov.il)

**All** questions about the **health tax refund** should be directed to:

[trumutbb@nioi.gov.il](mailto:trumutbb@nioi.gov.il)  
or fax 02-6515471

For additional assistance and information once you have read this document thoroughly, contact:  
Judy Singer, Matnat Chaim

Updated Jan 23, 2022

**Appendix A – how to fill out the 101 form**  
**(only for initial salary reimbursement for new donors)**

Fill out the personal details in sections ב, ג, ו, sign the form and include a copy of your teudat zehut.

In section ד choose "משכורת חודש"

**Section ה**

Unemployed; stay at home mom; yeshiva student	Choose <b>אין</b> לי הכנסות אחרות לרבות מלגות
Salaried worker	יש לי הכנסות נוספות Attach tax reconciliation (can often be done online)
Self-employed	<b>אין</b> לי הכנסות אחרות לרבות מלגות Inform your accountant regarding the extra income.
Salaried and self-employed	יש לי הכנסות נוספות Tax reconciliation between salaried employer and the health ministry. Inform accountant of the extra income.
Pensioner-early retirement	יש לי הכנסות נוספות Tax reconciliation with pension income
Pensioner -no early retirement	יש לי הכנסות נוספות Tax reconciliation with the portion of the pension income that is liable for taxation

If you have done a tax reconciliation – write by hand in section ה and in section ט: "מצורף תאום מס"

**Notes:**

1. If your tax bracket is 47% (502,921 per year or 41,911 per month or more) – there is no need to do the reconciliation. Choose יש לי הכנסה נוספת.
2. If you are simultaneously salaried and self-employed, you will get the tax refunded in your yearly report even if you don't do a reconciliation.

Thanks to Yehuda Hoyzman for the information.
